The screenshot displays the 'new script' dialog in Android Studio. On the left, a sidebar categorizes various actions into groups like App Manager, Log Manager, Input Actions, Time Manager, HW Keys, and Screen Actions. The central pane features a table detailing a sequence of six steps. The first five steps involve logging, conditional execution, password handling, resource access, and opening a URL. The sixth and final step, 'Wait', is currently selected and highlighted.

Step	Event	Value
1	CheckLog	Log ()
2	IfLog	((IfNot-Goto 1))
3	Password	
4	Resource	All
5	OpenURL	http://
6	Wait	1 Second

The screenshot displays the Windows 10 Start menu with several system management applications. At the top, there are three icons: a play button, a square, and a download arrow. Below these are three icons representing different management tools. The first section is labeled 'App Manager' and contains three icons: a download, a list, and a document. The second section is labeled 'Log Manager' and contains three icons: a document with a magnifying glass, a document with a checkmark, and a document with a magnifying glass and a checkmark. The third section is labeled 'Input Actions' and contains three icons: a keyboard, a power button, and a network icon. The fourth section is labeled 'Time Manager' and contains three icons: a clock, a bracket, and a waveform. The fifth section is labeled 'HW Keys' and contains three icons: a keyboard, a power button, and a network icon. The sixth section is labeled 'Screen Actions' and contains two icons: a camera and a power button.

Type	Script	No	Description	No	Event/Value	Result

Screen record of Galaxy S7 Edge has been taken.

The screenshot displays the Android Studio IDE interface. On the left, the Galaxy S7 Edge emulator is shown with a file upload dialog box overlaid. The dialog box contains the text "Drop files here or click to upload." and an "Install" button. Below the "Install" button is a "Package Name" label and a text input field. At the bottom of the dialog are "Run App" and "Uninstall All Apps" buttons. The emulator screen shows the Samsung logo, status bar (100% battery, 3:00 pm), and home screen with icons for Phone, Messages, Apps, Gallery, and Camera.

On the right, the "new script\*" editor is open, displaying a table with the following data:

Step	Event	Value
1	CheckLog	Log ()
2	IfLog	(IfNot-Goto 1)
3	Password	
4	Resource	All
5	OpenURL	http://
6	Wait	1 Second

Below the script editor, the "Problems" panel is visible, showing a table with the following data:

Type	Script	No	Description
------	--------	----	-------------

The "Output" panel is also visible, showing a table with the following data:

No	Event/Value	Result
----	-------------	--------
